SKILLS

- Experimental physics, instrumentation & QA/verification testing
- Data acquisition, data analysis & technical documentation
- Laboratory equipment troubleshooting & problem-solving
- MS Office (Word, PowerPoint & Excel)
- Website Development (HTML, CSS, JS, PHP, MySQL)
- Computer Application & Troubleshooting
- Communication, mentorship & collaboration
- Time Management & independent project ownership
- Driving (Valid License)

LANGUAGES

English
Urdu

Punjabi

CERTIFICATIONS

Full Stack Web Development
NAVTTTC, TICER Institute (Feb – Apr 2026)

Computer Applications
PESDC, The Blue Line College (Sep 2022 – Feb 2023), Grade A+ (88%)

Front-End Development
TICER (Jun – Aug 2023)

PORTFOLIO

muhammad-junaid-khan.github.io/myportfolio

OBJECTIVE

Physics graduate (BS Physics, Islamia University of Bahawalpur) with hands-on experience in experimental data analysis, instrumentation, and laboratory-based quality verification, gained through a final-year project on Linear Accelerator QA. Combines a strong analytical and physics foundation with practical technical skills in data acquisition, troubleshooting, documentation, web development, and independent problem-solving. Seeking to apply this analytical and technical skill set in a challenging role that offers opportunities for growth and continuous learning.

EDUCATION

Bachelor of Science in Physics <i>Islamia University of Bahawalpur</i>	2025
FSc (Pre-Engineering) <i>Govt. Degree College Syed Nasruddin Shah Gogran, Lodhran</i>	2020
Matric (Science) <i>Excellence Boys High School System, Lodhran</i>	2017

RELEVANT PROJECT

Daily QA of Linear Accelerator using EPID	Final Year Project
• Performed quantitative analysis of radiation beam quality as part of a daily quality-assurance routine for a medical Linear Accelerator. • Used an Electronic Portal Imaging Device (EPID) for instrument verification and accuracy testing — directly comparable to calibration and troubleshooting of laboratory instrumentation. • Applied structured data analysis and documentation techniques in a medical/experimental physics context, including logging results and identifying deviations from expected performance.	

EXPERIENCE

Freelance Website Developer <i>Independent / Direct & Referral Clients</i>	2023 – Present
• Designed, developed, and tested functional websites for direct clients, managing each project independently end to end. • Built front-end and back-end systems using HTML, CSS, JavaScript, PHP, and MySQL, applying structured, methodical problem-solving to diagnose and fix issues. • Managed client communication, requirements gathering, and documentation of project scope and delivery.	
Data Entry Operator <i>Rasheed Surgical Hospital, Lodhran</i>	Nov 2024 – May 2025
• Entered and managed patient records in MS Excel with a strong focus on accuracy and confidentiality. • Generated daily reports and maintained consistent, audit-ready documentation.	
Live Chat Agent <i>Bixi Soft Software House, Lodhran</i>	Oct 2023 – Mar 2024
• Handled customer queries professionally and provided real-time technical support and problem resolution. • Strengthened clear, structured communication — useful for mentorship and cross-team collaboration.
